# *INTRODUCTION*

Ok! First things first: this book is designed to be simple and extremely effective. My daughter Bryanah and I have written this book because we have (through trial and error) learned the importance of and the beautiful value in the relationship between mothers/fathers and their daughters. We want parents and their children to develop amazing communication habits so that they can bond (something that is badly missing from today's families) but also so that the kids will grow up knowing how to make better choices, giving them the best chance of getting through life with fewer mistakes.

*How to Keep Your Daughter From Doing What You Wish You Hadn't* is a book inspired completely by the love of a mom for her daughter. In life, there are so many winding roads and divergent paths a young girl could take. My desire is to help make all of our daughters' paths easier by imparting wisdom and knowledge into their precious lives. I often think back over my younger years and say, "If I had known then what I know now . . ." This book is my way of guiding girls of all ages through a life filled with less "*If I had known*" moments and more "*I'm glad I know*" moments.

# LOVE

*Love yourself and  
make choices based on that.*

*When you love YOU and  
understand that you are worthy of love,  
your choices in life will reflect that.*

Loving Your Daughter to Greatness  
*For My Bryanah and Yours*

*Respect and love  
your parents.*

*We love you more than life itself. Parents are not perfect,  
but we are doing the best we can and trying real hard not  
to mess this parenting thing up. Go easy on us.*
